mount the hyperance less of a general affectionate kinsman.

Mr. Leffingwell was born in Norwich, Conn., in December, 1806. He was the second child and eldest son of a family of seven children. His death is the first that has occurred to break this circle of brothers and sisters. Two of the sisters and one brother, Geo. H. Leffingwell, reside in Warren, Trumbull County. Chas. E. Leffingwell, the second brother and a sister reside in Iowa—the third brother Jas. S. Leffingwell resides in Rayanna.

In 1816 the family of Leffingwell removed from Connecticut to Warren, Ohio. They were transported by two teams, one of which he drove, a portion of the trip, though then but ten years o age.—He resided in Warren until the year 1836 when he removed to Ravenna and purchased the Pavillion Hotel, then occupy.

CHERIFF'S SALE. PETITION TO SELL LAND.

so Police Guards at the public stores and in barracks, or as Clerk, Orderlies, &c.

Doubtless there are many discharged soldiers in your county who are eligible; and if the matter was brought to their notice would be glad to endst in the Israelid Corps. Every such enlistment in the Corps, not only provides for a worthy man, disabled in the service, but releases an abie-bodied soldier from garrison duty, and gives the Government his services in the field.

The object of this circular, is to ask your co-operation in the matter. Please have attention called to it in your county that is to govern in the present case.

But, in particular, the chief consideration in the present case.

But, in particular, the chief consideration in the present case.

Saturday, the 5th of September, 1863, at the door of the Court House, in Warren, between the hours of 10 clock A. M., and 4 clock P. M. of said day, the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of one-tenth interest in the following described real estate, to wit: "One seventh of or of said lot, appraised at \$

WOODEUTES IMPROVED For the 2d Regiment Heavy Artillery BAROMETER!

FOR THE GRICULTURAL MILLION!

ACCURACY, DURABILITY.

PORTABILITY COMBINED WILLE in this age

are and importance, but principally because the peculiar deli-mey of construction, and the high cost of the instrument have made it unavisable to the mass-cs. In this instrument these ce. In this instrument measures the coherence have been entirely obviated. While its simplicity of construction, and scientificarrangement, render it perfect by portable and accurate, it nat is so low as to place it with in the means of all. Indicating in the means of all. Indicating with unerring certainty coming changes in the weather, it also afferds a simple and accurate medium for measuring heights, while the accompanying Thermometer gives the temperature. The Scientific American, Prof. Williams, Carr, Douglas Holmes and a host of public journals and scientific men, recommend it as the Agricultural Baromode, Pros. Pros. Honry

and Dick, have computed that an annual raving of five per cent. on all crops, might be made by its use, thus affording an annual saving of over fity million dollars to the farmers of the United States. It is sim-ally durable accurate, perfectly of the United States. It is aimple, durable, accurate, perfectly portable and very cheap? It is untely finished, and affords a very benatiful and ernamental piece of furniture, some of the carved cases being very elegant. We give below a brief description of it, from the accompanying cut, in which the cistern is seen divided to show its construction. The distern, A, is of cast from cast with two comportments—Large filled with mercary. The tube C, filled with mercary. The tube C, filled with mercary, is sealed, into the

which has a flat place filed in its side near the outer one, where air can pass through the outer wall,
when the mercury takes its level, and is in working
condition. To make it portable, turn it upon its
side, when the spare mercury runs from B, to A,
filling tube and eistern, A, full—turn in the screw,
and it is shut into A, perfectly solid, and may be
thrown about with impunity, or carried by Railcoad or Stage Express all over the world in safety.
As the only objection to the universal use of the
Barometer has been overcome by this invention, we

ave been awarded it by the New York, Vermon MR. CHARLES WILDER. f Peterboro, New Hampshire. For sale by CYRUS J. VANGORDER.
